Are you a past camper? **Please read before applying.**

Being a staff member is a whole different experience from being a camper. You are not at Camp to have fun. You are at Camp to make it fun for campers. Your personal wants, needs and preferences come second to the campers. In order to make the successful transition to a staff person, we recommend:

1. Gain life experience – graduate high school, start college, or work full-time. It makes a difference in your maturity level.
2. Review the essential functions of each position. Our positions require certain abilities and in order to guarantee the safety and well-being of our campers, we need our staff to be able to meet the essential functions.
3. We currently do not have any positions such as counselor assistant and all of our support staff positions (maintenance and food service) are salaried and live on-site.
4. If you would prefer to volunteer, you still need to go through the entire application and interview process to ensure that it is a good fit for you. If you are not a past staff member, we expect volunteers to serve at least one full camp week.
